

# All About Cesar

*Ms. Canelo's Class*

My name is Cesar V. and I am 10 and a half years old. I am going to be 11 years old on January 13 2001. I am studying the following subjects Math, History, Social Studies, Art, P.E, Music, Reading, Writing and Oral Language. My favorite sports are basketball, American football, soccer and wrestling, I like those types of sports because they are cool. When you're bored you could play those activities.

On my report card I always get threes. Now I am going to try my best to get at least some fours. So, when my mother and my father see my report card they'll be proud of me. Also I will be proud of myself for getting better grades. Then I will have the grades to pass from the fifth grade to the sixth grade. My mom could celebrate me

passing to the sixth grade.

When I grow up I want to be a teacher. All the teachers that I had taught me fun information. Also because I want to help kids learn things.

My sister was born in Mexico. She is in 2nd grade and is 6 years old. My little brother was born in California, He's 3 years old and he is in preschool. My other brother was born in California. He's in Kindergarten. His birthday just passed three days ago.

My Mother is 26 years old she works at a store where people could rent stuff for parties, Sometimes she helps me with my homework, and she buys us things from the store. My dad on the weekdays takes us to cool places. When he goes to work sometimes he takes me so I could help him when he needs me.
