

Mojave

by Ali

My favorite indian is Mojave. They lived in a big large house of mud in the Mojave desert. The Mojave were farmers and they got shells so they could be rich. The Mojave traded with other tribes. The water was very important for them. The farmers of the Mojave raised corn.

The Mojave hunted for food. They hunted rabbits, mountain sheep, raccoons, and skunk. They went 150 miles to hunt for food.

The Mojave prayed, sang, and danced. They told stories to go to sleep.
