

We go to the Wilshire Library. We go to the library walking. We looked carefully for cars. The teachers and moms helped us walk. Michelle was walking with her partner Joshua. We were drinking water because we got tired. We read books at the library. We go to the library with our moms. We went to read the books. We read a book and we borrowed it. We read with our moms and teachers. A little white cat followed us home. Ms McNellis took her to the office because the kitten didn't have a mommy. When we came back to school we ate lunch and then we went home.
